**Subject:** I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

I wholeheartedly oppose Duke's current use of and investment in dirty, old energy like coal and nuclear. It is imperative that we demand to see companies like Duke Energy begin to invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient, more technologically advanced and powered by local wind & solar that will employ thousands of Carolinians. As a young professional, just recently relocated to the Carolinas, it is issues like this that I will consider when voting for elected officials and staying permanently in the state.

Sincerely,

Monica Faulkner  
601 Jones Ferry Rd  
Carrboro, NC 27510-6114

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

William Fisk
